Lektor plugin to run *make lektor* for custom build systems.

INSTALLATION

```
python3 -m pip install lector-make
```

LEKTOR_MAKE

Simple Lektor build plugin to run *make lektor* when watched files change.

```
class lektor_make.MakePlugin(env, id)
    Plugin.

    on_before_build_all(builder: Any, **extra: Any) → None
        Even hook triggered before the other Lektor build steps.
```

INDICES AND TABLES

- `genindex`
- `modindex`
